Nurses Counselling: The View from the Practitioners ...

The text starts with a discussion about the range and breadth of counselling in nursing. This is an important chapter and presents a critical evaluation of the problems of counselling practice and doing research. Experienced practitioners have then contributed chapters on counselling in different situations.

ARE THE COUNSELLING SKILLS NURSES LEARN IN TRAINING ...

Are the Counselling skills nurses are taught during their initial training evident within the stories they tell about their interactions with patients and carers? This research evaluates whether nurses working in general hospital settings utilise the counselling skills they are taught during their initial nurse training when they practice as

nursing 110 final Flashcards | Quizlet

The school nurse is counseling an obese 10-year-old child. What factor would be important to consider when planning an intervention to support the child's health? A) Concentrate on the child only rather than the family since it is the child's responsibility. B) Consider the use of medications to suppress the appetite.
